

MEMORANDUM FOR SEE DISTRIBUTION

SUBJECT: Distribution of the Windows Visitation Estimation & Reporting System Patch Program

1. Enclosed are installation directions, instruction manual, workshop agenda, and program software on a CD-ROM.
2. The software provided will allow for visitation meter readings to be inputted in a Windows environment and for reports to be printed using a Windows printer as a stand alone device or as a network printer. This software will also provide automatic visitation data uploads to OMBIL.
3. Please follow the back up procedures before installing the new software. The original DOS based program needs to be working properly before the installation of the new software and the new software needs to be installed in the same hard drive directory as the original software.
4. If you have any questions, please contact:

Sam Franco  
U.S. Army Engineer Research and Development Center  
Environmental Laboratory  
Waterways Experiment Station  
(601) 634-4205
